Good morning,

Do you have room in your advising load to add one more? The last time I was in the program, I was assigned to Barbara Wilson. Since she's no longer with MNSU, I am looking for some guidance. I've been speaking with Julie Carlson because my situation is a unique and kind of crappy one (my own doing). My first go-round in the program was less than stellar, so I'm in a hole that will soon require some extra work on my part to dig out of. However, what I really need help with is just making sure that I'm on track with course selection. Julie said I could get credit for the Luoma Leadership Academy, but I'm not 100% on how that all works. If you have the ability to add one more, I would greatly appreciate the help. I've spoken with a few of the faculty in the program, but I feel most comfortable with your style of communication and level of directness.

Thanks in advance for considering.
